DETAILED ACTION

1. This action is in response to the Request for Continued Examination filed 9/7/2006.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, all of the various winding patterns claimed in claims 4-17 and 23-38 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to because it is not clear from Figure 1 that the excitation coil is wound in a figure-eight pattern. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

4. Claims 19, 21, 22, and 34-38 are objected to because of the following informalities:

As to Claims 19, 21, and 22,

The phrase "the metal" on the second to last line of claim 19, the third to last line of claim 21, and the fourth to last line of claim 22 lacks antecedent basis.

As to Claims 34-38,

These claims appear to contain the phrase "two opposite sides" on, for example, on line 2 of claim 34. However, the Examiner notes that it is not clear which opposite sides this claim is referring to. Note claim 33 which states "two opposite sides of the rectangular-ring" on line 2.

Appropriate correction is required.

Allowable Subject Matter

5. Claims 1-18, 20, and 23-33 are allowed.
6. Claims 19, 21, 22, and 34-38 are allowed upon overcoming the above noted claim objections.

Conclusion

7. This application is in condition for allowance except for the following formal matters:

See the above claim and drawing objections.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

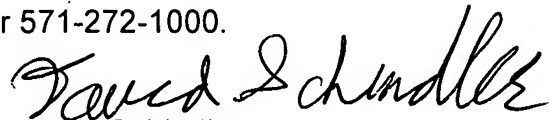

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
